**PROJECT TITLE:**

---

#### 1. Problem Statement:

*(This section explains the need to improve the visual appearance of the event registration page created in Assignment-1 using CSS for better layout and user experience.)*

---

#### 2. Objective:

*(This section describes the goal of the assignment, which is to apply CSS styling to transform the basic HTML page into a clean and professional-looking interface.)*

---

#### 3. Requirements:

*(This section lists all the styling tasks that must be implemented using CSS.)*

##### 3.1 Apply Global Styling:

*(Apply overall styles to the entire webpage including background, font, spacing, and text alignment to ensure a consistent design.)*

---

### 3.2 Style the Event Title and Description:

*(Enhance the appearance of the event heading and description using font size, color, spacing, and alignment to make them visually prominent.)*

---

### 3.3. Design the Event Information Section

*(Improve the layout and readability of the event details section by adding borders, spacing, background colors, and proper alignment.)*

---

### 3.4 Enhance the Registration Form Layout:

*(Style the registration form using a card layout with borders, padding, rounded corners, and shadow effects to improve presentation.)*

---

### 3.5 Style Fieldsets and Legends:

*(Improve the appearance of fieldsets and legends by adding borders, spacing, background highlights, and bold text styling.)*

---

### 3.6 Improve Input Elements:

*(Apply consistent styling to textboxes, dropdowns, radio buttons, checkboxes, file upload fields, and textarea elements. Add focus effects for better user interaction.)*

---

### 3.7 Button Styling:

*(Design attractive Submit and Reset buttons using background colors, padding, hover effects, rounded corners, and transitions.)*

---

### 3.8 Style the Participants Table:

*(Enhance the table by adding borders, header background color, alternate row styling, and hover effects for better readability.)*

---

### 3.9 Style the Declaration Section:

*(Align the declaration checkbox properly and add spacing to make it clear but visually balanced within the form.)*

---

### 3.10 Footer Design:

*(Style the footer with background color, center alignment, padding, and proper spacing to clearly display contact information.)*

---

## 4.CSS Concepts Used:

*(Mention the CSS concepts applied in the project such as selectors, box model, colors, typography, spacing, borders, shadows, hover effects, and table styling.)*

---

## 5. Implementation Steps:

*(Explain the step-by-step process followed to apply CSS styling to the HTML page.)*

---

## 6.Output:

*(Attach screenshots of the fully styled webpage, including the form, table, and footer, to demonstrate the final output.)*

---

## 7. Learning Outcome:

*(Explain the skills and understanding gained about CSS styling, layout control, and presentation design.)*

---

## 8. Conclusion:

*(Summarize how the HTML page was successfully enhanced using CSS to improve appearance and user experience.)*
